**Subject:** I sent this list to the Navy of our priority order for EPA reviews - FW: HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

Dear Angeles,

Since John is out, I wanted to make sure you are also in the loop about this communication with the Navy. As I discussed with John earlier this week, below I have laid out my understanding of the sequence of what pieces to send to the Navy. I have various members of my technical team working on different pieces simultaneously, but I am managing toward the priority of reference background soil testing as soon as possible. I have not had an in-depth discussion verbally after I sent this priority order list, but when we have touched on pieces of it as part of other discussions, they have agreed with those pieces. So unless I hear otherwise from anyone, this is my plan.

Lily

**Subject:** RE: HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

Hi Lily,

The Navy sent the work plan RTCs to make sure that the responses address your comments, prior to going through the process of updating all of the text.

If you can review the RTCs and let us know if they appear to address your comments, we will give the contractor the go-ahead to make changes and then send you the redlines. For several reasons, we cannot split out the RTCs for background.

Please let me know if you have any questions.

Best Regards,

Derek J. Robinson, PE

**Subject:** [Non-DoD Source] RE: HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

Dear Paul,

Thank you for sending these RTCs on the Parcel G Work Plan. Last fall, 2018, the Navy proposed to provide redline/strikeout versions of change pages rather than a revised entire document for regulatory agency review. We agreed to accept that. On April 15, 2019, during the meeting with Laura Duchnak and senior managers of EPA, CDPH, and DTSC, the Navy expressed a preference instead for providing the revised version of text that reflected the incorporation of the responses, not the redline/strikeout version, as originally offered. EPA, DTSC, and CDPH agreed to accept that instead. When will we receive the change pages? As we discussed last Thursday, May 9, 2019, we cannot complete our reviews and approvals without seeing the actual language of the revisions as they would appear in the final document to confirm resolution of comments.

In follow up to the voicemails I left you last Friday and today, based on our understanding through previous discussions of the relative priorities of the different parallel tracks of activities, we plan to prioritize EPA reviews in this order:

1. Reference background related portions of these RTC's and forthcoming change pages
2. Five-Year Review revised text (March 4, 2019 version)
3. Remaining portions of these RTC's (i.e., not necessary for soil reference background) and forthcoming change pages
4. Parcel G Addendum portions related to soil, once we receive further clarifying information regarding the soil sorter that addresses the list of topics I sent May 7, 2019
5. Parcel G Addendum portions related to buildings

Thank you again. I look forward to talking with you further to coordinate a process that helps move forward efficiently on priority items, i.e. reference background testing, while continuing to work through other steps in parallel.

Lily

**Subject:** HPNS Draft Final Parcel G Removal Site Evaluation Work Plan RTCs

BCT,

Please see attached RTCs on the HPNS Draft Final Parcel G Removal Site Evaluation Work Plan. The RTCs are in response to all comments received (December and April).

I am requesting a response by 5/21 to maintain the scheduled Final document distribution on 5/31.

Please let me know if you have any questions or if I can assist with walking through the responses.

Thank you!!
